Jeff

I spoke to Frank this morning.

We agreed to make Vido's detail to the Mayor Office effective 9/12.

This will eliminate any need for UFLAC Agenda items on this issue etc

We still need the letter outlining Vido's scope of work etc

Thx

RT

Great! We are close to finished w the scope memo.

Ok

Thx

Mon, Aug 22, 6:45 PM

Chief. The coordinators are looking to order bb jerseys and are asking me if we can tell them by tomorrow is

Tue, Aug 23, 4:58 PM

Frank it would be helpful if you guys would downplay this Vido thing. I've got LAT calling me off the hook and it really sounds like it's being driven by UFLAC. Would have been nice to have a transfer - like you said to me - "low key". And I think you can help with that right now by going low key with the reporters. Thanks.

I'm low key with reporters. Ben welsch called me, and nothing has changed. When he called me, he knew all this stuff and I was wondering who feeding him.

Ok

Thx

Conversation. Went into uflac supporting garcetti in election coming up, etc... went off Fire Marshall topic. All good. But reporter was loaded when he called me.

Getting closer every day. Feeling good about a plan soon.

Great. I just dont want to blindside anyone. Thank you Jeff.

Thanks and agree.

Jeff

Here are my recommendations for the Vido scope of work memo

1. Fire Inspection Management System (FIMS) is the top priority technology project for the FPB.

Vido has extensive knowledge with FIMS and has been working with 3DI to get this done. There is a Technology Surcharge that will soon take effect that will pay for FIMS

2. Support Ray Chan in extending the Construction Development Cycle

3. As needed mentor Chief Crowlev

Vido has extensive knowledge with FIMS and has been working with 3DI to get this done. There is a Technology Surcharge that will soon take effect that will pay for FIMS

2. Support Ray Chan in extending the Construction Development Cycle

3. As needed mentor Chief Crowley as she transitions into her new role

With regard to other work related issues

1. Vido be provided adequate office space in City Hall and as needed to work remotely on the above mentioned projects.

Those are my thoughts and recommendations ...this would go along way towards addressing Vido's

Copy thx chief

Today is a mess. But this will go away  
and it will all get better.

No one here is happy w Lima.

Kobe news is overshadowing all this  
noise as well.

Copy and agree

My main concern is how Vido is  
doing...in light of the article ...I have  
been talking to him but he is not  
happy

The memo will greatly assist Vido's  
feeling that he has been abandoned

Not sure what's taking Ana so long w  
the memo. Ray and I sent her inputs. I  
will follow up w her now.

Thx

Can I assist by reading it prior to  
giving to Vido?
